

ABOUT US

Jay's Music Academy (JMA) is a premier music education academy dedicated to helping learners of all ages, especially children, unlock their potential through music. Founded by Julian and Hermeline—two passionate individuals from diverse backgrounds—JMA was born from a shared belief that music is more than performance; it's a pathway to confidence, creativity, and personal growth.

Our teaching **philosophy** goes beyond music theory and technique—we focus on helping students internalize music so they can truly understand, feel, and express their emotions. With a balance of expert guidance and a nurturing environment, students build confidence, discipline, and creativity—gaining **skills that last a lifetime.**

We offer a variety of programs designed to nurture musical skills and enrich cognitive and emotional development:

- Group Music Classes for ages 18 months-14 years
- Private Lessons for ages 5+, including Piano, Guitar, Voice, Violin, and Saxophone.
- Adult Music Lessons for those seeking a creative outlet and rekindling the joy of music
- JMA Kids Chorus, where students grow through singing and performing.

WHY CHOOSE US?

"Learning as a group in an intrinsically musical setting where all learners thrive."

We use a differentiated approach where every individual is nurtured.

Students learn and make music together as a group.

Our curriculum covers the foundations of music as well as wider musical and literacy skills.

We learn through games, song, movement, composing, improvising, listening and performing.

OUR CLASSES

Pre-Notes

The magic of music begins for your little ones ages 2-4! This program is designed exclusively for the curious minds of preschoolers, laying the foundation for a musical journey that lasts a lifetime.

Little Keynotes

Our program for learners aged 4-5, Little KeyNotes develops the foundations through song, games and piano-playing.

Storytellers

Learners aged 6-9 will tell stories on the piano, developing their skills through creative and expressive approaches.

KeyNotes Play

KeyNotes Play is for learners aged 10+ and uses their sense of independent curiosity to engage and motivate.
